1. Jordan Lee

Senior Consultant, Cloud Engineering

Years of Experience: 5 years

Office: San Francisco, CA

Email: j.lee@meridian-llp.com

Professional Summary

Jordan Lee is a Senior Consultant in Meridian's Cloud Engineering practice, specializing in designing and implementing enterprise cloud infrastructure on AWS and Azure. Over five years, Jordan has contributed to 9 cloud migration and modernization engagements, serving clients in government, financial services, and technology sectors. Jordan is known for deep expertise in Infrastructure as Code (IaC), containerization, and CI/CD pipeline design, consistently delivering infrastructure that meets stringent security and compliance requirements including FedRAMP, SOC 2, and PCI-DSS.

Education

- BS, Computer Science, University of Washington (2021)
- Minor in Mathematics

Certifications

- AWS Solutions Architect - Professional
- AWS DevOps Engineer - Professional
- Microsoft Azure Administrator Associate (AZ-104)
- HashiCorp Certified: Terraform Associate
- Certified Kubernetes Administrator (CKA)

Technical Skills

- **Cloud Platforms:** AWS (VPC, ECS, EKS, Lambda, S3, RDS, CloudFront), Azure (AKS, App Service, Functions, ADLS Gen2)
- **Infrastructure as Code:** Terraform, AWS CloudFormation, Pulumi, Ansible
- **Containers & Orchestration:** Docker, Kubernetes, Helm, ArgoCD, Istio
- **CI/CD:** GitHub Actions, Azure DevOps Pipelines, Jenkins, GitLab CI
- **Programming:** Python, Go, Bash, TypeScript
- **Monitoring & Observability:** Datadog, Prometheus, Grafana, ELK Stack, AWS CloudWatch

Project Contributions

- **State Government Cloud Migration:** Designed and implemented landing zone architecture on Azure Government for 1,800-application migration. Built Terraform modules for standardized resource deployment, reducing provisioning time from 3 weeks to 2 hours. Developed automated compliance scanning pipeline achieving FedRAMP High controls coverage.
- **Global Bank API Platform:** Architected EKS-based microservices platform supporting 450 API endpoints.

Implemented service mesh (Istio) for traffic management and mTLS. Achieved 99.99% platform availability over 12-month measurement period.

- **SaaS Startup Infrastructure Buildout:** Built entire cloud infrastructure from scratch for Series B fintech startup on AWS. Designed multi-region active-active architecture supporting 50,000 transactions per second with sub-100ms latency.

Training Completed

- Meridian Cloud Architecture Academy (2023)
- AWS Advanced Networking Specialty - In Progress
- Meridian Leadership Essentials Program (2024)

2. Aisha Patel

Staff, Data Analytics

Years of Experience: 2 years

Office: New York, NY

Email: a.patel@meridian-llp.com

Professional Summary

Aisha Patel is a Staff member in Meridian's Data Analytics practice, contributing to business intelligence, data visualization, and advanced analytics engagements. Despite being early in her career, Aisha has already made significant contributions to 5 client engagements, demonstrating exceptional proficiency in SQL, Python, and Tableau. She has been recognized for her ability to translate complex analytical outputs into clear, actionable insights for business stakeholders, and she received the 'New Professional of the Year' award for the New York office in 2025.

Education

- MS, Business Analytics, Columbia University (2024)
- BS, Statistics, University of Michigan (2022)

Certifications

- Tableau Desktop Certified Professional
- Google Professional Data Engineer
- Microsoft Certified: Power BI Data Analyst Associate
- DataCamp Professional Data Scientist Certification

Technical Skills

- **Data Analysis:** Python (pandas, NumPy, scikit-learn), R, SQL (T-SQL, PL/SQL, BigQuery)
- **Visualization:** Tableau, Power BI, Matplotlib, Plotly, Looker
- **Data Engineering:** dbt, Apache Spark, Airflow, Snowflake, Databricks
- **Machine Learning:** Regression, classification, clustering, NLP (spaCy, Hugging Face)
- **Cloud:** GCP BigQuery, AWS Redshift, Azure Synapse Analytics

Project Contributions

- **Healthcare Claims Analytics:** Built predictive model for claims denial risk scoring using XGBoost, achieving 89% accuracy. Model identified \$4.2M in at-risk claims per quarter, enabling proactive intervention by revenue cycle team.
- **Retail Customer Segmentation:** Developed customer segmentation framework using k-means clustering on 12M+ customer records. Created interactive Tableau dashboard enabling marketing team to design targeted campaigns, contributing to 15% improvement in campaign conversion rates.
- **Financial Services Regulatory Reporting:** Automated CCAR stress testing data pipeline using Python and Airflow, reducing manual data preparation from 120 person-hours to 8

person-hours per reporting cycle.

Training Completed

- Meridian Data Analytics Foundations Program (2024)
- Advanced Machine Learning with Python - Internal Course (2025)
- Meridian Professional Communications Workshop (2024)
- Snowflake SnowPro Core Certification - In Progress

3. Marcus Wright, SAP Certified

Senior Consultant, SAP Functional

Years of Experience: 6 years

Office: Chicago, IL

Email: m.wright@meridian-llp.com

Professional Summary

Marcus Wright is a Senior Consultant specializing in SAP functional configuration and business process design. With 6 years of experience, Marcus has contributed to 7 SAP implementation and migration projects across manufacturing, distribution, and consumer products industries. He is recognized for his deep expertise in SAP Materials Management (MM) and Production Planning (PP) modules, and his ability to bridge the gap between technical SAP configuration and business process requirements. Marcus consistently receives outstanding client feedback for his communication skills, responsiveness, and attention to detail.

Education

- BS, Supply Chain Management, Michigan State University (2020)
- Minor in Information Technology

Certifications

- SAP Certified Application Associate - SAP S/4HANA Sourcing and Procurement
- SAP Certified Application Associate - SAP S/4HANA Manufacturing
- APICS Certified in Production and Inventory Management (CPIM)
- SAFe 5 Practitioner

Technical Skills

- **SAP Modules:** MM, PP, PP-PI, WM/EWM, QM, PM (configuration and support)
- **SAP Tools:** SAP Activate, LSMW, BODS, Fiori app configuration, BRF+
- **Integration:** SAP CPI, IDocs, BAPIs, EDI (850/855/856/810)
- **Reporting:** SAP Analytics Cloud, BW/4HANA, CDS Views, Embedded Analytics
- **Process Design:** BPMN, Signavio, SAP Solution Manager

Project Contributions

- **Fortune 200 Manufacturer:** Led MM and PP functional configuration for SAP S/4HANA greenfield implementation. Designed procurement and production planning processes for 8 distribution centers. Managed 380 functional specifications and coordinated UAT with 120 business users.
- **Consumer Products Company:** Configured SAP EWM (Extended Warehouse Management) for 3 distribution centers, enabling real-time inventory visibility and wave-based picking. Reduced warehouse processing time by 22%.
- **Chemical Manufacturer:** Designed and configured PP-PI (Process Industry) solution for batch manufacturing. Implemented quality management integration enabling real-time COA (Certificate of

Analysis) generation, reducing QA release cycle from 48 hours to 4 hours.

Training Completed

- SAP S/4HANA Manufacturing Deep Dive (SAP Official, 2024)
- Meridian Consulting Excellence Program (2023)
- Advanced Business Process Modeling - Internal Course (2024)
- Meridian Leadership Essentials Program (2025)

4. Emily Nakamura

Staff, Risk Advisory

Years of Experience: 3 years

Office: New York, NY

Email: e.nakamura@meridian-llp.com

Professional Summary

Emily Nakamura is a Staff member in Meridian's Risk Advisory practice, supporting internal audit, SOX compliance, and enterprise risk management engagements. In her 3 years at the firm, Emily has contributed to 8 client engagements across financial services, technology, and healthcare sectors. She is particularly skilled at IT general controls (ITGC) testing, SOX 404 walkthroughs and testing, and risk assessment documentation. Emily has been recognized for her thoroughness, strong analytical skills, and ability to work effectively with client personnel at all levels.

Education

- MS, Accounting (Assurance & Advisory concentration), Boston University (2023)
- BA, Economics, Wellesley College (2021)

Certifications

- Certified Internal Auditor (CIA) - Parts I and II passed, Part III in progress
- Certified Information Systems Auditor (CISA) - Expected Q2 2026
- CompTIA Security+ Certified
- Member, Institute of Internal Auditors (IIA)

Technical Skills

- **Audit & Risk:** SOX 404 testing, ITGC evaluation, COSO/ERM frameworks, risk heat mapping
- **IT Audit:** Active Directory reviews, change management, database security, segregation of duties (SoD)
- **Tools:** AuditBoard, TeamMate+, ACL Analytics, IDEA, ServiceNow GRC
- **Data Analysis:** SQL, Python (basic), Excel/VBA (advanced), Power BI
- **Frameworks:** COSO 2013, NIST CSF, COBIT 2019, ISO 27001

Project Contributions

- **Fortune 500 Financial Services Firm:** Executed SOX 404 testing for 18 key controls across revenue, procurement, and financial reporting cycles. Identified 2 control deficiencies and worked with management to design and implement remediation plans before year-end.
- **Technology Company IPO Readiness:** Supported SOX readiness assessment for pre-IPO SaaS company. Documented 42 business processes, identified 65 key controls, and designed testing procedures. Contributed to successful first-year SOX compliance with no material weaknesses.
- **Healthcare System Internal Audit:** Conducted HIPAA privacy and security risk assessment across 12-hospital

system. Tested 85 controls against NIST CSF framework and prepared findings report for Board Audit Committee presentation.

Training Completed

- Meridian Risk Advisory Foundations Program (2023)
- SOX 404 Testing Methodology - Advanced Course (2024)
- CISA Exam Preparation Course (2025)
- Meridian Professional Communications Workshop (2024)
- Data Analytics for Auditors - Internal Course (2025)
